What I liked best about the course:

The time when we were asked to work together and create our own units. It gave us the opportunity to try these 'new' tools and share our ideas & ways of working, different point of view and different activities.

What I think could be improved:

Save storage places would be good idea. (not the course it self)

What was new for me:

Most of the tools we were using were new for me, but I think I can manage to work with them somehow.

I would also like to take a course in:

~~alternative~~ ~~assistive tools~~ , 'creative teaching'.
