

How far have you come with applications for work-experience placements?

I have handed in one application, so now I'll have to wait and see.

I also think it'll be difficult to find a placement.

Yes, why do you think it may be difficult?

Because there are more students than posts.

Yes, it is difficult.

I think, anyway, that it is difficult for foreigners to find work-experience placements because I've heard on the radio that it seems to be difficult.

One has to be positive and believe in oneself!

Unsolicited application.

What's the time?

Nine forty-five.

Lone, it's time for a break!

Already! Yes, let's have a break.

I want a Danish pastry. I can take it!

Eh, do you have any meatballs?

Do you have any meatballs?

No, we don't.

Aye, you shouldn't have meatballs now!

But I fancy meatballs!

I have been to the cinema and saw "Nynne"

What's that?

Is it good?

I'd like to see that one too.

It's fun.

It's the Danish version of Bridget Jones's diary.

I've seen the English version of that one.

What would you really do if your boyfriend was unfaithful to you?

Really! Circumcise him.

No hesitation!

For sure!

Well, I do need to smoke.

Wait for me, please

Could you eat this one? I have changed my mind.

Yes, please.

You are the one who can take it, Christina.

You don't dye it any more, do you?

Never!

No, I can understand that.

It was the first and last time I'll ever do that.

So it was the second time!

It is getting as cold as hell.

Winter.

It may actually be a reason to stop smoking.

It's about time, girls!

It's cold, isn't it?

It's cold to be a smoker.

Yeah, we are also thinking about quitting.
