What I liked best about the course:
 The time when we were asked to work together and create our own units. It gave us the opportunity to try these 'new' tools and share our ideas & ways of working, different points of view and different countries.

What I think could be improved:
 Some storage places would be good idea. (not the course itself)

What was new for me:
 Most of the tools we were using were new for me, but I think I can manage to work with them somehow.

I would also like to take a course in:
~~creative~~ creative tools, 'creative teaching'.
