

# **The Skye workshop October 16th to 19th**

Dear friends,

Please read the text below carefully to see if I miss something. If you have suggestions please mail these to me a.s.a.p. (I'm in San Sebastian making video recordings with Marijo and Maite next week)

The final plan will be sent by Sean a week before the Skye Workshop.

## **We need to have a look at the following items:**

- Communication platform (a walkthrough)
- Dissemination (bring documentation of your dissemination in the first project year)
- Use of sparring partners
- Adaptation / translation of materials
- Interim report materials (documentation, work days, expenditure, etc.) from all project members according to contracts: November 5<sup>th</sup>

## **Check on the results from the first project year:**

Products checked against original plan

Dissemination

Quality control

## **To prepare for the next project year we'll have three workshops:**

### **Simulation Workshop**

Demonstration of a simulation from "Nine Graded Simulations by Ken Jones) all take part in the simulation: Kent Andersen

Brainstorm with ideas for new simulations to be developed by the BP-BLTM teams: All teams with the Scottish team responsible.

### **PhyEmoC Workshop**

Demonstration of a possible use of the PhyEmoC method with beginners: Kent Andersen and Frans van Schaik.

Brainstorm with ideas for the PhyEmoC method based on Rassias' "drama" techniques. How do we visualize such a method? How do we describe it in the method manual? All teams with the Romanian team responsible.

## **Tandem Workshop**

Walkthrough of the idea behind Tandem Learning by Frans van Schaik and Kent Andersen.

Brainstorm with ideas for the Tandem method. How do we visualize such a method? How do we describe it in the method manual? All teams with the Dutch team responsible.
